Our Team

Here at Himalaya Exchange, we are committed to protect our customers and crypto community.

Himalaya Exchange aims to set the crypto industry standard for Know Your Customers.

Our compliance teams are located in United Kingdom and Australia and provide compliance services to the group.

Most of our compliance team members have more than 5 years compliance experience in leading international banks and crypto companies.

Our CDD Process

- Customer Registration Process
- Identification and Verification
- Name Screening
- Risk Assessment
- Auto Approval, Auto Rejection and Manual Risk Review
- Ongoing Due Diligence

Customer Registration Process (Individual)

- Create Username
- Customer Info
- (Name, DOB)
- Residence and citizenship.

- **Create Security Questions**
- Security Questions add an extra layer of customer protection to the authentication process.
- Send One Time Password (OTP) to both registered email address and phone number to authorise the

account creation

Email & SMS

Verification

KYC **Ouestionnaire** **Document and** Facial Verification

- **KYC** Questionnaire for customer to provide customer profiles.
- Provides the basis for initial Financial Crime Risk Rating.
- Risk Based Approach for further verification e.g. bank statements / SoW / SoF.

- **ID** Document submission
- Al verification on the customer's identity and biometric information (facial recognition).

Case 1:23-cr-00118-AT Document 208-2 Filed 12/21/23 Page 4 of 10

Customer Registration Process (Corporate)

Company Appointed Representative

- Appointed Representative registers an account with email address, password.
- Same registration process as Individual including Security Questions setup.

Acceptable Customer Type

- Based on the result of the Business Risk Analysis, Himalaya Exchange only accepts the following legal entities:
- Personal Investment
- Companies (PIC)
- Corporate and Partnerships
- Trusts

- Funds

Due Diligence is conducted on the

Document

Check List

- Due Diligence is conducted on the corporate entity.
- Key documents to verify the ultimate ownership structure and legal status like:
 - Certificate of Incumbency
 - Board Resolution
 - Organisation Chart, etc .

Manual Review (EDD)

- Every Corporate customers undergoes EDD regardless of their initial Financial Crime Risk Rating.
- In addition to the main party (the legal entity), the connected parties have to go through complete KYC process and provide POA. For example, UBO with 10% or above ownership, Directors, Authorised Representative. For Trust -Settlor, Protector, Beneficiary, etc.
- For merchant account, an extra duediligence process will be adopted due to the high risk nature.

Case 1:23-cr-00118-AT Document 208-2 Filed 12/21/23 Page 5 of 10

Identification and Verification (ID&V), Screening

- Identification and Verification. Customer provides name, address and relevant data from our secured online portal. Customer's identity is verified against the government issued ID card. AI powered facial recognition is used to ensure the picture in ID matches selfie picture.
- Proof of Address. Customer address is manually verified against the bank statement, government ID, and utility bills
- Name Screening is performed against PEP (Politically Exposed Person), Sanctions, Adverse Media to fully compliant with AML regulations.

ID Proofing Check

Is the ID document authentic and valid?

Similarity Check

Is the person holding the ID the same person shown in the ID photo?

Liveness Check

Is the person holding the ID physically present during the transaction?

Definitive Answer

Jumio Identity Verification delivers a definitive yes or no answer in seconds.

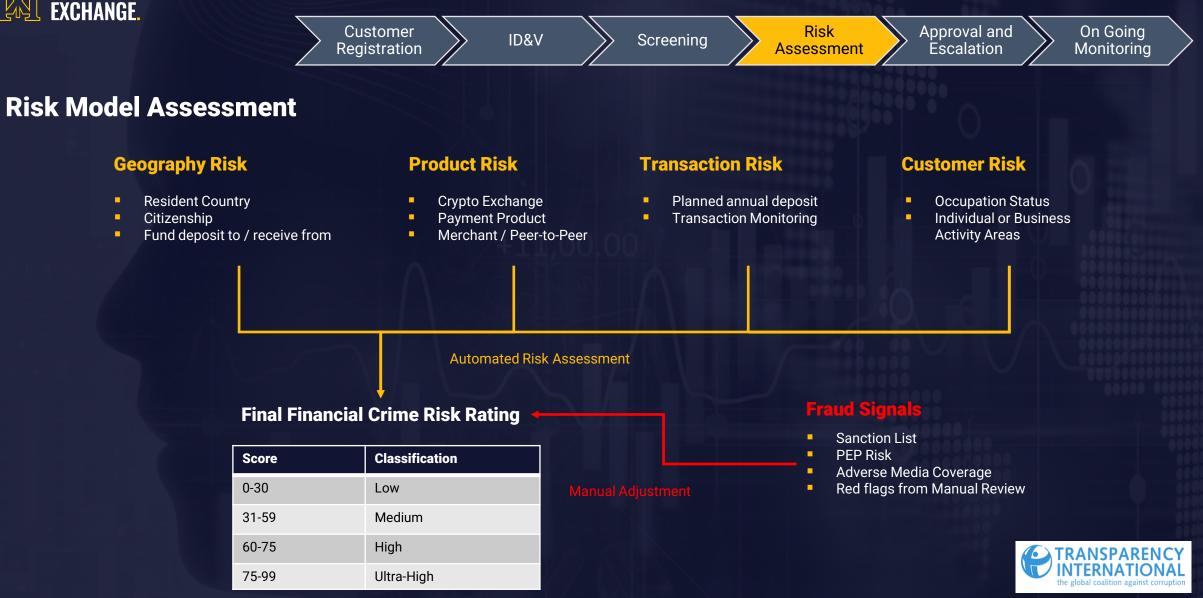

Business Risk

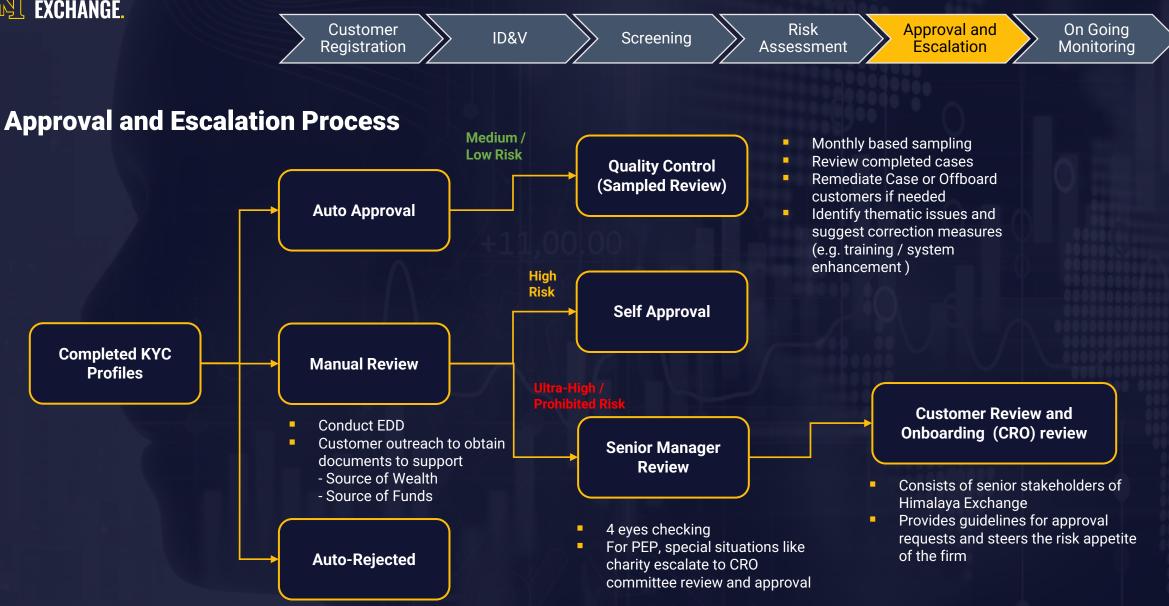

Risk Identified	Description	Controls in Place	Reflected in Customer Risk Model
Product Risk	Crypto ExchangePayment AppMerchant	 Identification, verification, full KYC data required for all users 	Expected deposit level
Customer Type Risk	Individual CustomersIndividuals across the globeHigh Net Worth IndividualsPEPsCorporate CustomersPersonal Holding CompaniesTrustsFundsInvestment VehiclesComplex Structures	 Identification, verification, full KYC data required for all users Name Screening against sanctions, PEP, adverse media Enhanced due diligence for higher risk customers (verification of employment, source of funds) 	 Risk factors include employment, business sectors Additional risk loading for customer for investment vehicles and complex structures.
